

Ben Brodhead is the attorney to call for tractor-trailer cases

AS AN HONORS GRADUATE OF HARVARD Law School, Ben C. Brodhead is no stranger to hard work, and, for more than a decade, there is no one who has fought harder to hold the trucking industry accountable when it recklessly injures or kills Georgia's citizens. Brodhead's efforts and accomplishments on behalf of his clients have earned him inclusion on the *Georgia Super Lawyers*® list for the third year in a row.

BEN BRODHEAD IS THE ATTORNEY OTHER ATTORNEYS CALL

Brodhead's ability to think outside the box has earned him a reputation as the attorney to call when there is a serious injury or death caused by a tractor-trailer. Even fellow *Georgia Super Lawyers* honoree Jim Neuberger says "Ben Brodhead is the attorney I would associate on any serious injury or death case caused by a tractor-trailer." "I am very proud of the fact that outstanding attorneys such as Jim [Neuberger] trust me enough to associate me on their cases," says Brodhead. When asked about Brodhead, attorney Mark Sullivan says, "Most attorneys work hard on their cases, but Ben Brodhead takes it to another level and comes up with successful strategies that no one else has ever even considered. I have seen him get millions of dollars on cases other attorneys would have lost."

BEN BRODHEAD TAKES THE FIGHT AS FAR AS NECESSARY - EVEN TO THE SUPREME COURT

In the past year alone, Brodhead has successfully fought for his clients in both the Supreme Court and Court of Appeals of Georgia, gaining rulings that will help all plaintiffs against companies that try to avoid responsibility for the harm they cause. Brodhead enjoys the challenges of arguing in the highest courts. "No matter how hard the trucking companies fight, we will fight harder," he says.

Although Brodhead takes all types of catastrophic injury cases, he has dedicated a substantial portion of his practice to mastering the intricacies of trucking litigation. Trucking cases are far different than normal car wreck cases due to the volume of state and federal regulations governing the industry

and the duty of care placed on professional drivers. "We take great pride in knowing the law better than our opponents and using that knowledge to achieve the maximum recovery for our clients," says Brodhead.
